The center for Adaptive Rationality directed by Ralph Hertwig at the Max Planck Institute for Human Development is seeking applicants for a

Research Internship

Research internships typically last 3 months. The anticipated start date is October 1st, 2017.

Requirements

- Enrollment in Psychology, Economics or a related subject at a European university
- High interest in participating in research on judgment and decision-making
- High flexibility and commitment
- Good proficiency in English and German

Desired qualifications (not all are necessary to apply)

- Communication skills
- Skills in statistics and statistical software packages

What we offer

The Center for Adaptive Rationality is investigating various aspects of judgment and decision-making. We offer you the chance to participate in an international and interdisciplinary research team. You will assist in running an eyetracking experiment, and, if interested, in analyzing eyetracking and behavioral data collected in this study. You will interact with scientists doing research using behavioral, computational and/or neuroscience methods to study the cognitive, affective, social and/or developmental basis for decision making. The Max Planck Society is committed to employing more handicapped individuals and especially encourages them to apply. The Max Planck Society seeks to increase the number of women in those areas where they are underrepresented and therefore explicitly encourages women to apply.

How to apply

The deadline for submitting applications is August 21st, 2017. Please send your application electronically to leuker@mpib-berlin.mpg.de using the subject line “Application Research Internship 1708”. Your application should include the following documents in a single PDF document: (a) a short motivation letter, (b) CV, and (c) relevant school/university certificates and references.
