The center for Adaptive Rationality directed by Ralph Hertwig at the Max Planck Institute for Human Development is seeking applicants for a

Research Internship
(Eye-tracking)

Research internships typically last 3 months. The anticipated start date is in January or February 2018.

Requirements

- Enrollment in Psychology, Cognitive Science, Neuroscience, Economics, or a related subject at a European university
- High interest in participating in research on judgment and decision-making
- High flexibility and commitment
- Good communication skills and proficiency in English and German

Desired qualifications (not all are necessary to apply)

- Skills in statistics and statistical software

What we offer

The Center for Adaptive Rationality is investigating various aspects of judgment and decision-making. We offer you the chance to participate in an international and interdisciplinary research team. You will assist in running an eyetracking experiment, and if interested, in analyzing eyetracking and behavioral data collected in this study. You will interact with scientists doing research using behavioral, computational and/or neuroscience methods to study the cognitive, affective, social and/or developmental basis for decision making. The Max Planck Society is committed to employing more individuals with disabilities and especially encourages qualified individuals to apply. The Max Planck Society seeks to increase the number of women in those areas where they are underrepresented and therefore explicitly encourages women to apply.

How to apply

The deadline for submitting applications is November 13th, 2017. Please send your application electronically to zilker@mpib-berlin.mpg.de using the subject line “Application Research Internship 1711”. Your application should include the following documents in a single PDF document: (a) a short motivation letter, (b) CV, and (c) relevant school/university certificates and references.
